

☞ PARENT UNIT ICONS (CONT'D)

Warning icons and messages

Battery low at Parent Unit
The battery is empty and needs to be recharged.

Operation is in progress.

Temperature too high
The temperature detected by the Baby Unit is higher than the maximum temperature alert setting.

Temperature too low
The temperature detected by the Baby Unit is lower than the minimum temperature alert setting.

No Link to Camera
The Parent Unit is searching for Baby Unit or the link between the Baby Unit and the Parent Unit has been lost.

The Parent Unit is connected to AC power.

Parent Unit Indication Lights

LINK

- On when the Parent Unit is linked to the Baby Unit.
- Flashes when the link to the Baby Unit being viewed is lost.

- On when the Parent Unit is connected to AC power, or the battery is charging.
- Flashes when the Parent Unit battery is low and needs charging.
- Off when the Parent Unit is disconnected from AC power.

📶 SOUND SENSITIVITY AND SOUND ACTIVATION

Adjust the sound sensitivity of the Baby Unit

The Parent Unit screen will turn on only when the detected sounds exceed a set level.

Use the Parent Unit to adjust the microphone sensitivity of your Baby Unit. The higher the sensitivity level, the more sensitive the Baby Unit is in detecting sounds that transmit to the Parent Unit. The VOX sensitivity level is preset to the highest level.

VOX

60 min

30 min

5 min

OFF

📺 DIM MODE

Dim mode helps you save Parent Unit power. When your Parent Unit is not charging, the display will automatically dim after 10 minutes of inactivity if no keys are pressed or alerts are received from the Baby Unit.

10 min inactivity

Press any button

NOTE

- When the screen is dimmed, any keypress or alert message will trigger the screen to return to the preset brightness level. After 10 minutes of inactivity, it will resume back to dim mode.

🌙 NIGHT VISION

The Baby Unit has infrared LEDs that allow you to see your baby clearly at night or in a dark room. When the Baby Unit detects low light levels, the infrared LEDs are switched on automatically. The images from the Baby Unit are in black and white, and appears on the Parent Unit screen.

NOTES

- It is normal to see a short white glare on your Parent Unit screen when the Baby Unit adapts to the dark environment.
- When the infrared LEDs are on, the images are in black and white. This is normal.

TIP

- Depending on the surroundings and other interfering factors, for example, lighting, objects, colours and backgrounds, the image quality may vary. Adjust the Baby Unit angle or place the Baby Unit at a higher location to prevent glare and a blurred display.

🔧 MOUNT THE BABY UNIT ON DRY WALL (OPTIONAL)

Items to purchase

You will need to purchase the following items separately to mount your Baby Unit:

2 screws

2 wall plugs

NOTE

- The types of screws and wall plugs you need depend on the composition of the wall.

1

Drill two holes in the wall. If you drill the holes into a stud, go to step 3.

2

If you drill the holes into an object other than a stud, insert the wall plugs into the holes. Tap gently on the ends with a hammer until the wall plugs are flush with the wall.

3

Insert the screws into the holes and tighten the screws until only 6.5 mm of the screws are exposed.

4

Align the wall mount holes on the Baby Unit with the screws on the wall. Slide the Baby Unit down until it locks into place.

5

Adjust the camera angle.

🗉 FREQUENTLY ASKED QUESTIONS

Below are the questions most frequently asked about the baby monitor.

Why does the baby monitor not respond normally?	Try the following (in the order listed) for common cure: 1. Disconnect the power to the Baby Unit and the Parent Unit. 2. Wait a few seconds before connecting power back to the Baby Unit and the Parent Unit. 3. Turn on the Baby Unit and the Parent Unit. 4. Wait for the Parent Unit to synchronise with the Baby Unit. Allow up to one minute for this to take place.
Why doesn't the Baby Unit and Parent Unit power-on light illuminate when the units are switched on?	Perhaps the Parent Unit is not connected to the power. Insert the adaptor plug into the Parent Unit and insert the adaptor in a wall socket. Then, press and hold to switch on the Parent Unit to establish connection with the Baby Unit. Perhaps the Baby Unit is not connected to the power. Insert the adaptor plug into the Baby Unit and insert the adaptor in a wall socket. Slide the ON/OFF switch to turn on the Baby Unit to establish a connection with the Parent Unit.
Why doesn't my Parent Unit charge while connected to AC power?	Make sure the power is not controlled by an electronically controlled wall switch. The battery may be degraded through extended use or defective. See Warranty for repair/replacement.
Why is my screen in black and white?	The screen is in black and white during night-time or in a dark room when the night vision feature is activated. This is normal.
Why do I get glare or blurry display on my screen when viewing my baby at night?	During night-time or in a dark room, the surroundings and other interfering factors, like lighting, objects, colours and backgrounds may affect the image quality on your Parent Unit screen. Adjust the Baby Unit angle or place the Baby Unit at a higher level to prevent glare and a blurry display.
Why does the baby monitor produce a feedback noise?	The Parent Unit and Baby Unit may be too close to each other. • Move the Parent Unit away from the Baby Unit until the noise stops; OR • Turn down the volume of your Parent Unit.
Why does the Parent Unit beep?	The Baby Unit may be out of range. Move the Parent Unit closer to the Baby Unit (but not less than 1m). The Parent Unit may not have enough charge for the Parent Unit to perform normally. Charge the battery in the Parent Unit until the battery icon becomes solid . The temperature of your baby's room may be too high or too low.
Why does the Parent Unit react to other sounds other than those of my baby?	If the Baby Unit also picks up other sounds than those of your baby, try adjusting the VOX sensitivity level to a lower level or lower the Parent Unit speaker volume.
Why don't I hear a sound/Why can't I hear my baby cry?	The Parent Unit speaker volume may be too low. See Adjust Parent Unit speaker volume to increase the volume.
Why can't I establish a connection? Why is the connection lost every now and then? Why are there sound interruptions?	The Baby Unit may be out of range. Move the Parent Unit closer to the Baby Unit (but not less than 1m). Other electronic products and wireless products may cause interference with your baby monitor. Try installing your baby monitor as far away from these devices as possible.

CUSTOMER SERVICE AND PRODUCT WARRANTY

PRODUCT WARRANTY

Thank you for choosing this quality product from VTech.

1. The product detailed above is covered by a one year warranty from the date of purchase, against any defects in materials or workmanship.

2. The product may be returned to the place of purchase.

3. If the product covered by this warranty is damaged due to misuse, modification or unauthorised repair, or because of faulty batteries, battery discharge or incorrect electrical connections, then this warranty becomes void.

4. This warranty is personal to the original purchaser and is not transferable.

5. Breakages to the LCD screen are not covered by the warranty.

6. Damage to the antenna is not covered by the warranty.

DISPOSAL OF BATTERIES AND PRODUCT

The crossed-out wheelee bin symbols on products and batteries, or on their respective packaging, indicates they must not be disposed of in domestic waste as they contain substances that can be damaging to the environment and human health.

The chemical symbols Hg, Cd or Pb, where marked, indicate that the battery contains more than the specified value of mercury (Hg), cadmium (Cd) or lead (Pb) set out in Battery Directive (2006/66/EC).

The solid bar indicates that the product was placed on the market after 13th August, 2005.

Help protect the environment by disposing of your product or batteries responsibly.

DECLARATION OF CONFORMITY

This product is intended for use within UK and Ireland.
This equipment complies with the essential requirements to EU Radio Equipment Directive (2014/53/EU) and the UK Radio Regulations 2017 on radio systems and telecommunication equipment.

🧼 GENERAL PRODUCT CARE

- To keep this product working well and looking good, follow these guidelines:
- Avoid placing near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps).
 - DO NOT expose to direct sunlight or moisture.
 - Avoid dropping the product or treating it roughly.
 - Clean with a soft damp cloth.
 - Clean the USB charging port of dust, dirt, and lint regularly.
 - DO NOT immerse the Parent Unit or the Baby Unit in water and do not clean under running water.
 - DO NOT use solvents, household cleaning sprays, or liquid cleaners.
 - Make sure the Parent Unit and the Baby Unit are dry before reconnecting to the mains supply.

📦 STORAGE

When you are not going to use the baby monitor for some time, store the Parent Unit, the Baby Unit and the adaptors in a cool, dry place.

ADULT SUPERVISION

- This baby monitor should be for use by adults only.
- Do not place the Baby Unit inside the cot or playpen.
- To ensure your children's safety, do not allow them to touch or play with the baby monitor and its accessories. THIS IS NOT A TOY.
