TECHNICAL SPECIFICATIONS

## IMPORTANT SAFETY INSTRUCTIONS

When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

- 1. Follow all warnings and instructions marked on the
- Adult setup is required. This product is not a substitute for adult supervision of the infant. Supervising the infant is the responsibility of the parent or carer. This product could cease operating, and therefore you should not assume it will continue working properly for any given period of time. Further, this is not a medical device and should not be used as such. This product
- is intended to assist you in supervising your baby. 4. Do not use this product near water, for example, near to bath, sink, swimming pool or shower
- 5. CAUTION: Use only the battery provided. There may be a risk of explosion if a wrong type of battery is used for the parent unit. The battery cannot be subjected to high or low extreme temperature and low air pressure at high altitude during use, storage or transportation. Disposal of battery into fire or a hot oven, or mechanically crushing or cutting or the battery can result in an explosion. Leaving the battery in an extremely high temperature surrounding environment can result in an explosion or the leakage of flammable liquid of gas. Battery subjected to extremely low air pressure may result in an explosion or the leakage of flammable liquid or gas. Dispose of used batteries according to the instructions.
- 6. Use only the adaptors included with this product. Incorrect adaptor polarity or voltage can seriously damage the product.

7. Use only adaptors and battery listed below.

Power adaptor information: VTech Telecommunications Ltd. Model: VT05EEU06040(EU),VT05EUK06040(UK) Ten Pao Industrial Co., Ltd.

Model: S003ATV06040(EU),S003ATB06040(UK) Rechargeable battery information:

- Corun Ni-MH AAA750X2-K Ni-MH AAA750mAh 2.4V The power adaptors are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
- For pluggable equipment, the socket-outlet should be installed near the equipment and should be easily accessible.
- Unplug this product from the wall outlet before cleaning.
   Do not use liquid or aerosol cleaners. Use a damp cloth for
- Unplug the power cords before replacing batteries. 12. Do not cut off the power adaptors to replace them with other plugs, as this causes a hazardous situation. Do not allow anything to rest on the power cords. Do not install this product where the cords may be walked
- on or crimped. 14. This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home,
- consult your dealer or local power company.

  15. Do not overload wall outlets or use an extension cord. 16. Do not place this product on an unstable table, shelf,
- 17. This product should not be placed in any area where proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a

## 18. Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product. 19. To reduce the risk of electric shock, do not disassemble

- this product, but take it to an authorized service facility. Opening or removing parts of the product other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used. 20. You should test the sound reception every time you turn on the units or move one of the components.
- 21. Periodically examine all components for damage. 22. There is a very low risk of privacy loss when using certain electronic devices, such as baby monitors, cordless telephones, etc. To protect your privacy, make sure the product has never been used before purchase, reset
- the baby monitor periodically by powering off and then powering on the units, and power off the baby monitor if you will not use it for some time. 23. Children should be supervised to ensure that they do not olay with the product. The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge,

## SAVE THESE INSTRUCTIONS

### Cautions

1. Use and store the product at a temperature between  $0^{\circ}\text{C}$  and  $40^{\circ}\text{C}.$ 

unless they have been given supervision or instruction concerning use of the appliance by a person responsible

- Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to a heating source.
- Batteries should not be exposed to excessive heat such as bright sunshine or fire.
- ⚠ Warning—Strangulation Hazard—Children have STRANGLED in cords. Keep this cord out of the reach of children (more than 0.9m away). Do not remove this tag.
- Never place the baby unit inside the baby's crib or playpen. Never cover the baby unit or parent unit with anything such as a towel or a blanket.
- Other electronic products may cause interference with your baby monitor. Try installing your baby monitor as far away from these electronic devices as possible: wireless routers, radios, cellular telephones, intercoms, room monitors, televisions, personal computers, kitchen appliances and cordless telephones.

Precautions for users of implanted cardiac pacemakers Cardiac pacemakers (applies only to digital cordless

Wireless Technology Research, LLC (WTR), an independent research entity, led a multidisciplinary evaluation of the interference between portable wireless devices and implanted cardiac pacemakers. Supported by the U.S. Food and Drug Administration, WTR recommends to physicians that:

### **Pacemaker patients**

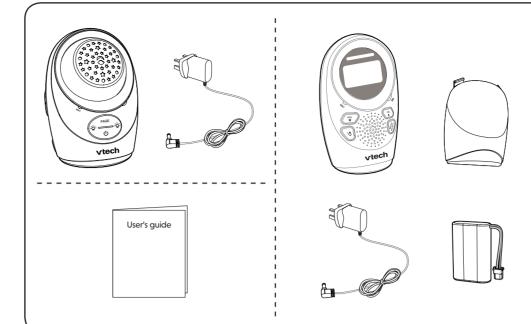

- Should keep wireless devices at least six inches from the pacemaker
- Should NOT place wireless devices directly over the pacemaker, such as in a breast pocket, when it is turned ON.

WTR's evaluation did not identify any risk to bystanders with pacemakers from other persons using wireless devices.

### Electromagnetic fields (EMF)

This VTech product complies with all standards regarding electromagnetic fields (EMF). If handled properly and according to the instructions in this user's manual, the product is safe to be used based on scientific evidence available today.

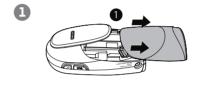

## WHAT'S IN THE BOX

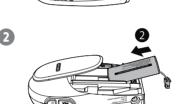

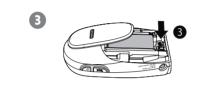

## CONNECT AND CHARGE THE BATTERY
