vtech User's manual

CONGRATULATIONS

on purchasing your new VTech product. Before using this product, please read Important safety instruction

This manual has all the feature operations and troubleshooting necessary to install and operate your new VTech product. Please review this manual thoroughly to ensure proper installation and operation of this innovative and feature-rich VTech product.

For support, shopping, and everything new at VTech, visit our website at www.vtechphones.com.

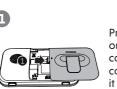

CONNECT AND CHARGE THE BATTERY

Install the battery

The parent unit runs on rechargeable battery or AC power. To continuously monitor your baby, make sure you use both battery and AC power at the same time. With the battery alone, the parent unit can cordlessly run for a short time only.

Notes

- Use only the battery supplied with this product.
- · If the parent unit will not be used for a long time, disconnect and remove the battery to prevent possible leakage

Replace the battery

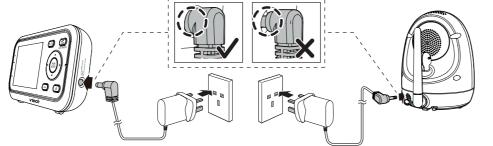

solid 🎟

To replace the battery, press down on the battery compartment cover and pull it out, then follow the steps above to install the battery.

Connect the baby monitor

- Use only the power adapters supplied with this product.
- Make sure the baby monitor is not connected to the switch controlled electric outlet
- · Connect the power adapters in a vertical or floor mount position only. The adapters' prongs are not designed to hold the weight of baby monitor, so do not connect them to any ceiling, under-thetable, or cabinet outlets. Otherwise, the adapters may not properly connect to the outlets.
- Make sure the parent unit, the baby unit and the power adapter cords are out of reach of children.

Charge the parent unit battery

When you have connected and turned on the parent unit, the battery will be charged automatically. The battery icon indicates the battery status (see the following table).

USING THE BABY MONITOR (CON'T)

Lullaby

The baby monitor has five lullabies and four soothing sounds for you to comfort your baby. You can play the lullabies or soothing sounds on the baby unit using the parent unit.

- 1. Press **MENU** when the parent unit is idle.
- 2. Press \triangleleft or \triangleright to choose \square , then press **SELECT** or \blacktriangle .
- 3. Press ▲ to choose 🤹, then press ◀.

4. Press ∇ or \blacktriangle to choose a lullaby or a soothing sound, or choose $\frac{1}{2}$ to stop playing.

5. Press **SELECT** to confirm your selection.

• The selected lullaby plays for 30 minutes and stops automatically.

• The lullaby playback on the baby unit will be paused when receiving talkback from the parent unit.

Screen off timer

You can set the screen off time for the parent unit when there is no key press for a specific time interval.

When the screen is turned off, you can still hear sound from the baby unit.

- 1. Press MENU when the parent unit is idle.
- 2. Press \blacktriangleleft or \triangleright to choose \square , then press **SELECT** or \blacktriangle .
- 3. Press $\mathbf{\nabla}$ or \mathbf{A} to choose the desired time period to automatically turn off screen (🔝 / 🔛 / 🔛 / ன), then press **SELECT** to confirm your selection.

Monitoring mode * for VM3261-2 only

Every time the parent unit is turned on, it displays a baby unit in **Single CAM** mode. If there are two baby units in your system, you can also monitor your baby in **Patrol** mode.

Single CAM	The screen displays image of a single baby unit in full screen.
Patrol	A single cam view that transitions to a different baby unit every 10 seconds.

To switch to another camera:

Press A to view the next baby unit.

The bat displays

The 🛲 The bat

• This baby monitor is intended as an aid. It is not a substitute for proper adult supervision, and should not be used as such.

Test your baby monitor

CAUTION

the noise

3. Press ♥ or ▲ to choose the desired sensitivity level, then press **SELECT** to confirm your selection.

The parent unit battery is fully charged after 11 hours of continuous charging.

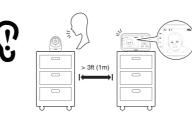

• It takes longer to charge the battery when the parent unit is turned on. To shorten the charging time, turn the parent unit off while charging. • The standby time varies depending on the volume level you set and your actual use.

		-
RY INDICATORS	BATTERY STATUS	Αςτιον

ttery icon becomes	The battery is fully charged.	To keep the battery charged, connect it to AC power when not in use.

2 BEFORE USE

You may test the baby monitor before initial use, and at regular times thereafter

 For hearing protection, make sure the parent unit is more than 3 feet (1 meter) away from both baby units. If you hear any high-pitched noise, move the parent unit further until the noise stops. You can also press VOL- on the parent unit to lower or reduce

1. Make sure your baby unit and parent unit are on. 2. The parent unit displays images from the baby unit. • Speak towards the microphone of the baby unit.

You will hear the sound at the parent unit.

3. If you have two baby units, view the image from one of them by pressing CAM. Then, repeat step 2.

🖹 Note

- When the parent unit displays **b**, and the **LINK** LED light flashes, move the parent unit closer to the baby units (observe the minimum distance of 3 feet / 1 meter). You can also check if the baby unit is connected to a live power socket and switched on.
- 淙 ΤιΡ
- Increase the speaker volume of the parent unit if you cannot hear the sounds transmitted from the baby units

Positioning the baby monitor

() CAUTION

NOTE 🖹

- To avoid interference from other electronic devices, place your baby monitor far away from devices such as wireless routers, microwaves, cell phones and computers
- .. Place the baby units more than 3 feet (1 meter) away from your baby.
- 2. Adjust the angle of the baby unit
- camera to aim at your baby. Tilt - adjust camera angle manually.
- Pan press and hold ◀ or ▶ on the parent unit remotely.
- 3. Place the parent unit more than 3 feet (1 meter) away from the baby units.

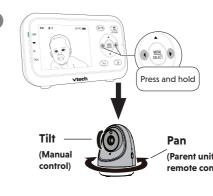

CAUTION

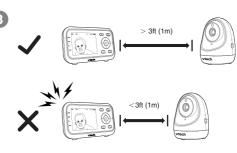

- The default volume of your parent unit is level 3, and the maximum volume is level 5. If you experience high-pitched screeching noise from your baby monitor while positioning:
- Make sure your baby units and parent unit are more than 3 feet (1 meter) apart, OR
- Lower the volume of your parent unit.

Operating range

The operating range of the baby monitor is up to 1000 feet (300 meters) outdoors or 160 feet (50 meters) indoors. The actual operating range may vary depending on the environmental conditions and other interferences such as walls, doors and other obstructions

USING THE BABY MONITOR

Power on or off the baby unit

Power on or off the parent unit

Turn on or off the parent unit screen

You can turn on or off the parent unit screen without powering off the parent unit. You can still hear sound from the baby units.

Adjust speaker volume

- For parent unit:
- 🖹 Note

For baby unit:

- 1. Press MENU when the parent unit is idle.
- Press

- 5. Press SELECT to confirm your selection.

Adjust LCD brightness

- brightness is preset to **Level 3**.

To enter Patrol mode:

- 1. Press **MENU** when the parent unit is idle.
- 2. Press \triangleleft or \triangleright to choose \blacksquare , then press **SELECT** or \blacktriangle .
- 3. Press ∇ or \blacktriangle to switch \square , then press **SELECT** to confirm your selection.

Adjust the sound sensitivity of the baby unit

You can choose to hear sounds from the baby unit all the time, or to hear sounds that exceed a certain level. You can use the parent unit to adjust the microphone sensitivity of your baby unit. The higher the sensitivity level, the more sensitive the baby unit is in detecting sounds for transmitting to the parent unit. The VOX sensitivity level is preset to the highest level.

ΓΙVΙΤΥ	Highest	High I	Medium	Low	Lowest I
NPTION	The parent unit speaker is constantly on, and you will hear all sounds (including background noises) from your baby's room.	The parent unit speaker turns on for soft babbling and louder sounds from your baby. It remains quiet when your baby sleeps soundly.	The parent unit speaker turns on for loud babbling and louder sounds from your baby. It remains quiet when your baby makes soft sounds.	The parent unit speaker turns on for crying and louder sounds from your baby. It remains quiet when your baby makes soft sounds.	The parent unit speaker turns on for loud crying or screeching sounds from your baby. It remains quiet when your baby makes soft sounds.

1. Press **MENU** when the parent unit is idle.

2. Press \triangleleft or \triangleright to choose \Downarrow , then press **SELECT** or \blacktriangle .

• If the screen is off, and the setting of sound-activated screen is **ON**, then LCD screen will be turned on automatically when VOX sensitivity is triggered.

尝ΤιΡ

- If you want to use a sound machine or white noise machine for natural white noise while using this baby monitor to check on your baby, you can:
- Lower the volume of your sound machine or white noise machine; or
- Lower the sensitivity level of your baby monitor to medium (level 3) or below. Default level is the highest level.

Turn on or off the sound activation

When sound activation is on, as long as no sound is detected within 50 seconds, the parent unit screen will turn off automatically to save power.

When your baby unit detects a sound, which exceeds the selected sensitivity level, the sound activation triggers the parent unit screen to turn on automatically. When no sound is detected within 50 seconds, the screen will be off again.

1. Press **MENU** when the parent unit is idle.

2. Press ◀ or ▶ to choose 🙆, then press SELECT or ▲.

3. Press ∇ or \triangle to choose \bigcirc or \bigcirc , then press **SELECT** to confirm your selection.

 If the sound sensitivity is set to the highest level, the parent unit screen may remain on continuously even though sound activation is on. This depends on whether the baby unit detects any sounds.

Pan, tilt, zoom

You can pan and tilt the images or zoom in while viewing images from the baby unit.

- <u>Press and hold</u> \blacktriangle , \forall , \triangleleft or \triangleright to pan or tilt the image upward, downward, leftward or rightward.
- Press ⊕ to zoom in.
- <u>Press and hold</u> ▲, ♥, ◀ or ► to pan or tilt the zoomed image upward, downward, leftward or rightward.
- Press \oplus again to zoom out.

Talk

You can use the **TALK** function of the parent unit to comfort your baby.

- 1. Press and hold **TALK** on the parent unit. The **TALK** light turns on.
- 2. Speak towards the microphone on the parent unit. Your voice is broadcast to the baby unit.
- 3. Release the **TALK** key to stop the broadcast.

NOTE

• The parent unit speaker is muted during voice broadcast. Sound transmission from the baby unit resumes after TALK is released.

Monitor the temperature

Temperature format

Your baby unit monitors the temperature of your baby's room with its built-in temperature sensor. If the detected temperature is out of the preset temperature range, the parent unit will display an alert message.

Slide the **ON/OFF** switch to **ON** to turn on the baby unit. The **POWER** LED light turns on. Slide the **ON/OFF** switch to **OFF** to turn off the baby unit. The **POWER** LED light turns off.

<u>Press and hold</u> \oplus to turn on the parent unit. The screen turns on. <u>Press and hold</u> \oplus again to turn off the parent unit. The screen turns off.

Press and hold LCD ON/OFF on the parent unit to turn off the screen.

Press any key on the parent unit to turn on the screen again

Press VOL-/VOL+ on the parent unit to adjust the speaker volume.

Users cannot set the parent unit speaker volume to zero. The parent unit will be muted automatically when the parent unit is talking to the baby unit. When it is muted, **4** appears on the screen and the K light turns on.

The baby unit speaker volume determines the lullaby volume and talkback volume transmitted from parent unit. The volume can be adjusted in the parent unit.

2. Press ◀ or ► to choose , then press SELECT or ▲.

Press ▼ or ▲ to choose the volume level of the baby unit.

You can change the brightness of the parent unit screen from Level 1 to Level 5. The LCD

1. Press MENU when the parent unit is idle.

2. Press \triangleleft or \triangleright to choose $\dot{\heartsuit}$, then press **SELECT** or \blacktriangle .

3. Press ▼ or ▲ to choose the desired level of brightness, then press SELECT.

Set temperature range

You can set the desired room temperature alert range. The minimum temperature can be set between 50 °F (10 °C) and 76 °F (24 °C). The maximum temperature can be set between 77 °F (25 °C) and 102 °F (39 °C).

1. Press **MENU** when the parent unit is idle.

2. Press \triangleleft or \triangleright to choose \blacklozenge , then press **SELECT** or \blacktriangle .

3. Press ▼ or ▲ to choose №, then press ◀.

4. Press ▼ or ▲ to choose MIN or MAX, then press SELECT.

5. Press $\mathbf{\nabla}$ or \mathbf{A} to choose the desired minimum or maximum temperature, then press **SELECT** to confirm your selection.

Temperature alert tone

You can turn on the temperature alert tone so that the parent unit will emit an alert tone if the detected temperature is out of range.

1. Press **MENU** when the parent unit is idle.

2. Press \triangleleft or \triangleright to choose \clubsuit , then press **SELECT** or \blacktriangle .

3. Press ∇ or \blacktriangle to choose \square , then press SELECT.

4. Press \triangledown or \blacktriangle to choose \boxdot or \boxdot , then press **SELECT** to confirm your selection.

You can choose to display the temperature in Fahrenheit (°F) or Celsius (°C).

1. Press **MENU** when the parent unit is idle.

2. Press \triangleleft or \triangleright to choose \clubsuit , then press **SELECT** or \blacktriangle .

3. Press ∇ or \blacktriangle to choose \downarrow , then press **SELECT**.

4. Press ∇ or \triangle to choose **T** or **C**, then press **SELECT** to confirm your selection.

FREQUENTLY ASKED QUESTIONS

Below are the questions most frequently asked about the baby monitor. If you cannot find the answer to your contact 1 (900) 505-0511 for utochohonos com

Why does the	Try the following (in the order listed) for common cure:
baby monitor	 Disconnect the power to the baby units and the parent unit.
not respond	2. Remove the batteries in the parent unit. Then, install the batteries again.
normally?	3. Wait a few seconds before connecting power back to the baby units and the parent unit.
	Turn on the baby units and the parent unit.
	Wait for the parent unit to synchronize with the baby units. Allow up to one minute for this to take place.
Why don't the power-on light of the baby unit and parent unit go on when I switch on the units?	Perhaps the parent unit is not connected to the power. Insert the appliance plug into the parent unit and put the adapter in a wall socket. Then, <u>press and hold</u> $\textcircled{0}$ to switch on the parent unit and to establish connection with the baby unit.
	Perhaps the baby unit is not connected to the power. Insert the appliance plug into the baby unit and put the adapter in a wall socket. Then, slide the UON/OFF switch to ON to switch on the baby unit and to establish connection with the parent unit.
Why doesn't my parent	Make sure the power is not controlled by a wall switch.
unit charge while connected to AC power?	Make sure the battery is correctly installed in your parent unit.
connected to the power.	You may have used the battery for a long time. Replace a new battery.
Why is my screen in black and white?	The screen is in black and white during night-time or in a dark room when the night vision feature is activated. This is normal.
Why do I get glare or blurry display on my screen when viewing my baby at night?	During night-time or in a dark room, the surroundings and other interfering factors, like lightings, objects, colors and backgrounds may affect the image quality on your parent unit screen. Adjust the baby unit's angle or place the baby unit at a higher level to prevent glare and blurry display.
Why does the baby monitor produce a high-pitched noise?	 The parent unit and baby units may be too close to each other. Move the parent unit away from the baby units until the noise stops; OR Turn down the volume of your parent unit.
Why does the parent unit beep?	The baby units may be out of range. Move the parent unit closer to the baby units (but not less than 3 feet).
	The parent unit may not have enough charge for the parent unit to perform normally. Charge the battery in the parent unit for up to 11 hours.
	The temperature of your baby's room may be too high or too low.
Why does the parent unit react too quickly to other sounds?	The baby unit also picks up other sounds than those of your baby. Adjust the VOX sensitivity level to a lower level or lower the parent unit speaker volume.
Why don't I hear a sound/Why can't I hear my baby cry?	The parent unit speaker volume may be too low. Press VOL+ to increase the volume, or use the parent unit menu to change sound sensitivity level to the highest level (level 5).
	You may have set a low VOX sensitivity level. See Adjust the sound sensitivity of the baby unit to set to a higher level.
Why can't I establish a connection? Why is the connection lost every now and then? Why are there sound interruptions?	The baby units may be out of range. Move the parent unit closer to the baby units (but not less than 3 feet).
	Other electronic products may cause interference with your baby monitor. Try installing your baby monitor as far away from these electronic devices as possible.
	If you power on only one baby unit, your parent unit may display $\mathbb Z$ and No link to

If you power on only one baby unit, your parent unit may display 🏅 and **No link to** CAM #, and the LINK LED light flashes. Press VIEW to switch to the baby unit you have powered on.

IMPORTANT SAFETY INSTRUCTIONS

When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

- Follow all warnings and instructions marked on the product. Adult setup is required
- This product is intended as an aid. It is not a substitute for responsible and proper adult supervision and should not be
- used as such. 4. This product is not intended for use as a medical monitor.
- Do not use this product near water. For example, do not use it next to a bath tub, wash bowl, kitchen sink, laundry tub or swimming pool, or in a wet basement or shower. 6. CAUTION: Use only the batteries indicated in this manual. There may be a risk of explosion if a wrong type of battery is used for the parent unit. Use only the supplied rechargeable battery or replacement battery pack for the parent unit. Do not dispose of batteries in a fire. They may explode. Disposed of used batteries according to the instruction.
- 7. Use only the adapters included with this product. Incorrect adapter polarity or voltage can seriously damage the product. Baby unit power adapter: Output: 5V DC 1000mA; Parent unit power adapter: Output: 6V DC 500mA.
- The power adapters are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
- 9. For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible. 10. Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for 11. Unplug the power cords before replacing batteries.
- 12. Do not cut off the power adapters to replace them with other plugs, as this causes a hazardous situation.
- 13. Do not allow anything to rest on the power cords. Do not install this product where the cords may be walked on or
- 14. This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home, consult your dealer or local power company. 15. Do not overload wall outlets or use an extension cord.
- 16. Do not place this product on an unstable table, shelf, stand or other unstable surfaces.
- Do not product an an ansible rable, shen, shen, such of other unsible suffices.
 This product should not be placed in any area where proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat register.
- 18. Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product. 19. To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility
- Opening or removing parts of the product other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently used. 20. You should test the sound reception every time you turn on the units or move one of the components. 21. Periodically examine all components for damage.
- Be aware of possible loss of privacy while using public airwaves. Conversations may be picked up by other nursery monitors, cordless phones, scanners, etc.
- 23. Children should be supervised to ensure that they do not play with the product.
- 24. The product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

SAVE THESE INSTRUCTIONS

- Cautions Use and store the product at a temperature between 0° C and 40° C.
- Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to a heating source. Batteries should not be exposed to excessive heat such as bright sunshine or fire.
- . Make sure the baby unit and the adaptor cord are always out of reach of the baby, at least 3 feet away from
- the baby or cot, to avoid a possible strangulation hazard. Never place the baby unit(s) inside the baby's cot or playpen. Never cover the baby unit(s) or parent unit with
- anything such as a fower or a blanket.
 Other electronic products may cause interference with your baby monitor. Try installing your baby monitor. as far away from these electronic devices as possible: wireless routers, radios, cellular telephor room monitors, televisions, personal computers, kitchen appliances and cordless telephones.
