# Adjust the sound sensitivity of the baby unit

You can choose to hear sounds from the baby unit all the time, or to hear sounds that exceed a certain level. You can use the parent unit to adjust the microphone sensitivity of your baby unit. The higher the sensitivity level, the more sensitive the baby unit is in detecting sounds for transmitting to the parent unit. The sensitivity level is preset to **Level 5**.

	Sensitivity Level		Description
	Level 5	High sensitivity	Highest sensitivity level The parent unit speaker is constantly on, and you will hear all sounds (including background noises) from your baby's room.
en ind, ind, ine	Level 4		High sensitivity level The parent unit speaker turns on for soft babbling and louder sounds from your baby. It remains quiet when your baby sleeps soundly.
	Level 3		Medium sensitivity level The parent unit speaker turns on for loud babbling and louder sounds from your baby. It remains quiet when your baby makes soft sounds.
	Level 2		Low sensitivity level The parent unit speaker turns on for crying and louder sounds from your baby. It remains quiet when your baby makes soft sounds.
	Level 1		Lowest sensitivity level The parent unit speaker turns on for loud crying or screeching sounds from your baby. It remains quiet when your baby makes soft sounds.

- Press  $\stackrel{\bullet}{\text{MENU}}$  when the parent unit is not in
- Press SELECT to select SENSITIVITY.
- 3. Press <sup>vol.</sup> or <sup>vol.</sup> to choose the sensitivity
- 4. Press **SELECT** to confirm your selection. The screen displays **SAVED** and you hear a confirmation tone.

 To enter the **SENSITIVITY** menu of the parent unit, the baby unit must be turned on.

# Lullaby

The baby monitor has five lullabies for you to comfort your baby. You can play lullaby on the baby unit by controlling remotely with the parent

# To play lullaby:

- 1. Press sherry when the parent unit is not in
- 2. Press <sup>VOL</sup> or <sup>VOL</sup> to choose **LULLABY**, then press SELECT.
- 3. Press <sup>VOL</sup> or <sup>VOL</sup> to choose a lullaby, then press SELECT.
- 4. Press **SELECT** again to choose **PLAY**. The screen displays **SAVED** and you hear a confirmation tone.

# To stop lullaby:

- 1. Press  $\stackrel{\mathfrak{D}}{\text{MENU}}$  when the parent unit is not in
- 2. Press <sup>VOL</sup> or <sup>VOL</sup> to choose **LULLABY**, then press SELECT.
- 3. Press SELECT again to choose the lullaby that you are playing. 4. Press **SELECT** again to choose **STOP**. The
- screen displays SAVED and you hear a confirmation tone.

# **O**NOTES

- When the baby unit is playing lullaby, the parent unit displays 🎝
- To enter the **LULLABY** menu of the parent unit, the baby unit must be turned on.

# Talk to the baby unit

You can broadcast messages from parent unit to baby unit.

- 1. Press and hold TALK on the side of the parent unit. The screen displays TALK when the voice connection to the baby unit is
- 2. Speak towards the MIC on the parent unit. Your voice is broadcast to the baby unit.

· If speaker volume of the parent unit has been turned off before the talk, it will change to default volume level after the talk finished.

# Find/page the parent unit

Use this feature to locate misplaced parent

- 1. Press **PAGE** on the baby unit. The parent unit rings and displays PAGING.
- To end paging, press any key on the parent unit, or press PAGE on the baby unit.

# **O**NOTES

- Paging rings the parent unit even if the speaker volume is set to VOLUME OFF.
- The baby unit cannot page the parent unit if it is turned off, out of range, or talking to the baby unit.

# General product care

To keep this product working well and looking good, follow these guidelines:

- · Avoid placing it near heating appliances and devices that generate electrical noise (for example, motors or fluorescent lamps).
- · DO NOT expose it to direct sunlight or moisture. Avoid dropping the product or treating it roughly.
- · Clean with a soft damp cloth.
- DO NOT immerse the parent unit and the baby unit in water and do not clean them under running DO NOT use cleaning spray or liquid cleaners.
- Make sure the baby unit and parent unit are dry
- before you connect them to the mains again.

# Storage

When you are not going to use the baby monitor for some time, remove the rechargeable battery from the parent unit. Store the parent unit, the baby unit and the adaptors in a cool and dry place.

# Frequently asked questions

Below are the questions most frequently asked about the baby monitor.

Why does the baby monitor not respond normally?	Try the following (in the order listed) for common cure:  1. Disconnect the power to the baby unit and the parent unit.  2. Remove the batteries in the parent unit. Then, install the batteries again.  3. Wait a few minutes before connecting power back to the baby unit and the parent unit.  4. Turn on the baby unit and the parent unit.  5. Wait for the parent unit to synchronize with the baby unit. Allow up to one minute for this to take place.	-
Why doesn't the parent unit power-on light illuminate when the unit is switched on?	Perhaps the rechargeable battery of the parent unit is empty and the parent unit is not connected to the power. Insert the appliance plug into the parent unit and insert the adaptor in a wall socket.	•
Why doesn't the POWER light of the baby unit go on when I switch on the unit?	Perhaps the baby unit is not connected to the power. Connect the baby unit to the power.	
Why does the baby monitor produce a feedback?	The units may be too close to each other. Make sure the parent unit and the baby unit are more than 6.5 feet (2 metres) away from each other.	
Why does the parent unit react too quickly to other sounds?	The baby unit also detects other sounds than those of your baby. Adjust the sensitivity level to a lower level or adjust the speaker volume on the parent unit.	
Why don't I hear a sound/ Why can't I hear	The volume of the parent unit may have set too low. Press ot oincrease the volume level.

# Important safety instructions

he applied nameplate is located at the bottom of the baby unit's base When using your equipment, basic safety precautions should always be followed to reduce the risk of fire,

electric shock and injury, including the following: 1. Follow all warnings and instructions marked on the

- 2. Adult setup is required. 3. CAUTION: Do not install the baby unit at a height
- above 2 metres 4. This product is not a substitute for adult supervision of the infant. Supervising the infant is the responsibility of the parent or carer. This product could cease operating, and therefore you should not assume it will continue working properly for any given period of time. Further, this is not a medical device and should not be used as such. This product is
- 5. Do not use this product near water, for example, near to a bath, sink, swimming pool or shower. 6. CAUTION: Use only the battery provided. There

intended to assist you in supervising your baby.

- may be a risk of explosion if a wrong type of battery is used for the parent unit. The battery cannot be subjected to high or low extreme temperature and low air pressure at high altitude during use, storage or transportation. Disposal of battery into fire or a hot oven, or mechanically crushing or cutting or the battery can result in an explosion. Leaving the battery in an extremely high temperature surrounding environment can result in an explosion or the leakage of flammable liquid of gas. Battery subjected to extremely low air pressure may result in an explosion or the leakage of flammable liquid or gas. Dispose of used battery according to the instructions.
- 7. Use only the adaptors included with this product. Incorrect adaptor polarity or voltage can seriously damage the product.

Power adaptor information: Output: 6V DC 450mA Ten Pao Industrial Co., Ltd.

Rechargeable battery information: NiMH AAA400mAh 2.4V Model: Corun - Ni-MH AAA400\*2-CB

- 9. The power adaptors are intended to be correctly oriented in a vertical or floor mount position. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under-the-table or cabinet outlet.
- be installed near the equipment and should be easily accessible. 11. Unplug this product from the wall outlet before
- cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
- other plugs, as this causes a hazardous situation.
- 13. Do not allow anything to rest on the power cords. Do not install this product where the cords may be walked

- on or crimped. 14. This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply in your home, consult your dealer or local power company.
  - 15. Do not overload wall outlets or use an extension cord. 16. Do not place this product on an unstable table, shelf,

stand or other unstable surfaces.

- 17. This product should not be placed in any area where proper ventilation is not provided. Slots and openings in the back or bottom of this product are provided for ventilation. To protect them from overheating, these openings must not be blocked by placing the product on a soft surface such as a bed, sofa or rug. This product should never be placed near or over a radiator or heat source.
- 18. Never push objects of any kind into this product through the slots because they may touch dangerous voltage points or create a short circuit. Never spill liquid of any kind on the product.
- 19. To reduce the risk of electric shock, do not disassemble this product, but take it to an authorized service facility. Opening or removing parts of the product other than specified access doors may expose you to dangerous voltages or other risks. Incorrect reassembling can cause electric shock when the product is subsequently
- 20. You should test the sound reception every time you turn on the units or move one of the components.
- Periodically examine all components for damage.
- 22. There is a very low risk of privacy loss when using certain electronic devices, such as baby monitors cordless telephones, etc. To protect your privacy, make sure the product has never been used before purchase, reset the baby monitor periodically by powering off and then powering on the units, and power off the baby monitor if vou will not use it for some time. 23. Children should be supervised to ensure that they do
- not play with the product. 24. The product is not intended for use by persons

(including children) with reduced physical, sensory

knowledge, unless they have been given supervision

or mental capabilities, or lack of experience and

- or instruction concerning use of the appliance by a person responsible for their safety SAVE THESE INSTRUCTIONS Cautions
- Use and store the product at a temperature between 0°C and 40°C.
- Do not expose the product to extreme cold, heat or direct sunlight. Do not put the product close to a heating source. Batteries should not be exposed to excessive heat
- such as bright sunshine or fire
- Warning—Strangulation Hazard—Children have STRANGLED in cords. Keep this cord out of the reach of children (more han 3 ft (0.9 m) away). Do not remove
- Never place the baby unit(s) inside the baby's cot or playpen. Never cover the baby unit(s) or parent unit with anything such as a towel or a blanket.
- with your baby monitor. Try installing your baby
